Marquees, Silk Linings and White Marquees

The information below will enable you to choose the marquee you require. However, our sales staff are available to help you choose your MARQUEE CAPACITY : If your guests are to be seated, allow 10--12 sq. ft. per person. For casual functions allow 6-8 sq. ft. per person.

The chart below is a guide only. It does not include room for such things as bars, buffet, dance floors, bridal tables, etc. To cope with these extras select a larger marquee.
